WEB DEVELOPER

LuckyLabz, Varna | 01/2019 - 05/2019

- Creating website layout/user interface by using standard HTML/CSS practices
- Writing well designed, testable, efficient code by using best software development practices
- Integrating data from various back-end services and databases
- Responsible for maintaining, expanding, and scaling the company sites
- Cooperating with web designers to match visual design intent
- Collaborating with other team members

The short time I've spent in this company is because of the financial problem that led to massive restructuring and substantially reduce of the teams in the company.
